WAUKEGAN HAS A BAD FIRE

The Thomas Brass and Iron Works are Totally Destroyed; Loss \$200,000

ORIGIN OF FIRE UNKNOWN

Worst Fire to Occur in Years, Throwing Over Two Hundred Workmen Out of Employment Tuesday Morning

At an early hour Tuesday morning a fire of uncertain origin destroyed the large factory of the Thomas Brass and Iron Works which included not only the plant of the brass company but also that of the Durand Steel Locker Company, which occupies the entire lower floor of the big plant at Waukegan.

The loss of the brass company is close to \$200,000, half covered by insurance. The loss to the locker company is about \$100,000, partially covered. Each concern employed about a 100 to 125 men. In all three large buildings are a total loss.

L. S. Gibson is acting president of the brass company. W. N. Vancas is manager for the locker company. Both declare the companies will likely rebuild their plants.

While the exact origin of the fire is unknown, the statement made by Sam'l Nelson, watchman for the brass company is to the effect that at 1 o'clock, he was in the upper portion of the building, walking around his beat when he heard a small explosion in the lower southern portion of the building.

"It wasn't very loud but it scared me and I headed for there to see what it was," said Nelson "but the smoke and flames leaped up in my face was the worst you can imagine."

"I didn't have much time left to get out of the place alive if I had lost a minute getting out, I would have perished because the flames spread so fast. I made escape as quickly as possible and ran to the water works where I told the engineer and he turned in the alarm. I felt that my escape was most miraculous."

"I cannot figure out what started the fire for the explosion did not seem very loud and I knew nothing that would cause such an explosion. I passed along there some time before and everything was all right."

While there is nothing definite on the matter, there is a report that a can of gasoline exploded in the low portion of the building but officials and employees of the company deny knowledge that such was the case. Another report was that the jappanning ovens of the locker company had exploded. Nothing definite on this can be determined.

The fire whistle drew hundreds of persons to the vicinity of the works and hundreds remained on the bluff on Sheridan road. Seldom has the city had a more spectacular blaze than this one. The long, many-windowed building, enveloped in flames, was indeed a spectacular sight as the flames leaped into the heavens in a mighty roar.

Many persons volunteered to help the firemen and they surely need some for the flames menaced nearby property and while the big brass works was doomed when the department got into action, because the flames spread so fast, the attention of the fire department was needed to save the following adjoining and nearby buildings.

The city water works, light house residence, North shore gas works, E. J. & E. Dept. Barwell coal meal factory, and beer ware house.

In each case employees of the above places obtained small garden hose and used them to good advantage in connection with the fight of the local firemen. Their valiant work helped save most of the above places, for the wind was from the east, and had the water pressure been off, or even low, the danger to the surrounding property would have been far greater.

So far as the buildings, equipment, etc., is concerned, the fire proved disastrous to both concerns. In fact, the loss to the brass company includes all three buildings, for, while the walls of the foundry are still left, the building, with the rest of the plant gone, is of little use.

L. S. Gibson acting president of the brass company said to a reporter while the fire raged the highest.

"The company was doing a fine business, employing about 100 men. We had lots of orders and prospects were fine. The controlling stockholder of the company is Morris Well, of Chicago."

"I cannot say that we will rebuild but believe we will. We had a fine lot of machinery and patterns they being the most important of all and representing alone about \$50,000. These are all gone and it means a big job to make them over again. Our records and books, I believe, are saved for they were in a vault which is believed to be fire proof. I estimate what will be our first move for I shall communicate with Mr. Well at once."

DROWNED AT FOX LAKE

Young Man Perishes Within Sight of Many Cottagers

Before the eyes of a crowd of summer cottagers attracted to the beach by his cries of distress, but who feared to go to his aid, Joseph Gardner a young man 26 years of age, a Milwaukee & St. Paul railroad fireman, 845 North Fairfield avenue, Chicago, was drowned in Fox lake Tuesday evening at 5:30 o'clock.

Gardner had gone into the water shortly after eating a hearty luncheon. He was an expert swimmer and he swam about for some time. Finally when only a hundred feet from shore he was stricken with a cramp.

As he sank he shouted for help, and his cries echoed along the beach, bringing out dozens of the inhabitants of the cottages near the water's edge.

Two large rowboats lay on the beach near the panic-stricken crowd, but no one made a move to push off to the aid of the drowning.

When he came up after sinking the first time, he again shouted for aid, but the persons on the beach remained impassive and helpless in the panic that had seized them.

A second time Gardner's head rose above the water and a second time he cried for help, but still no move was made for the boats, which the drowning man could see as well as those he was begging for aid.

He made a terrific struggle to get into shallow water, but the effort was of no avail and a third time he sank before the onlookers could recover from their stupor and send for help they themselves refused to give.

Twenty minutes after Gardner sank for the last time Daniel McMann of Fox Lake reached the beach end, jumping into one of the boats, rowed to the spot where Gardner last had been seen. After some search he discovered the body and drew it aboard with a boat hook.

A physician was hastily summoned and worked over the corpse for two hours, but to no purpose.

The men, women and children who witnessed the tragedy said that none in the party could swim and that was the reason no one went to the rescue of the drowning.

"I should not swim," said one man, whose name could not be learned, but who was one of the first on the beach in response to the cries of Gardner, "I was afraid to trust myself out in the boat."

None of these present would give their names.

Gardner and his sister had taken a cottage for the summer. His sister was away at the time of the tragedy, but was found before physician had given up hope of resuscitating the swimmer.

FAIR IN NEW RACE CIRCUIT

Tri-Fair Races to be Feature at Libertyville this Year

The Lake county fair has joined the Northern Illinois and Southern Wisconsin Fair and Race Circuit and will this year, September 6 to 9 inclusive, offer its premier program of racing. C. E. French of Lake Geneva, is president of the circuit and R. A. Etter of Monroe, is secretary while the races are presented at Monroe and Elkhorn fairs as well as at Libertyville.

There are purses aggregating \$16,600. Each fair will have the same classes.

There is the usual program for baseball, five games of which will be played subject to the usual entry conditions and with a \$50 purse.

Wednesday of the fair is children's day and all under fourteen are admitted free of charge. There are special attractions.

The speed program:

Running race each day.	
2:35 Trot. Purses.....	\$400
2:25 Trot. Stake.....	800
2:20 Trot. Purses.....	400
2:16 Trot. Stake.....	600
2-Year-Old Trot, 1 mile. Stake.....	300
2:35 Pace. Purses.....	400
2:25 Pace. Stake.....	800
2:20 Pace. Purses.....	400
2:15 Pace. Stake.....	600
Free-for-all Pace.....	500

How He Got a Meal.

Tramp—"Lady, have you got a pair of old shoes you don't need?" Mrs. Kindhart—"I have a pair of my husband's, but I fear they're hardly fit for further wear, my good man." Tramp—"Alas! Lady, I can't afford to wear them—I only wanted them to stew an' eat."

HOTEL PROPERTY WANTED

Wanted—To buy or lease a prominent summer resort, or would buy location for same, on Lake Marie, Channel, Bluff or Petite lakes, by a party who has a good established business, with good reputation. For particulars call at this office.

TRAIN HITS AUTO

Hurls Five Men in Air at a Crossing of the Electric in Winnetka

ON WAY TO RAWN INQUEST

Doctor Silent as to Destination of Three Insurance Representatives in Car—Only Slightly Hurt

Five persons were injured, none seriously, and an automobile owned by Dr. Frank Mason, living at the Hotel Windmere, Chicago, was totally demolished Wednesday night when the machine was struck by a train of the Chicago and Milwaukee Electric Line at the Ash street crossing in Winnetka.

The train, south-bound and running at a high rate of speed, crashed into the auto as it was fairly across the track. The machine was hurled some distance from the tracks and all the occupants fell clear of the car.

Three of the men in the car are connected with insurance companies and are believed to have been on their way to the village hall to attend the Rawn inquest. Dr. Mason refused to deny this, but he also refused to say what their destination was. He said the party boarded his car at the Marquette Building in Chicago.

As the machine approached the crossing Fowler, who Dr. Mason said was a careful driver, stopped when forty feet away from the tracks and looked both ways to see if the road was clear. Because of an incline his view was slightly obstructed, and unaware that the express train of the electric train was approaching from Milwaukee at high speed, he drove the auto onto the tracks. No warning whistle was blown, according to the occupants of the wrecked machine, until the train was less than a dozen feet away. Then, according to the victims, the whistle was sounded by Motorman Johnson, who then attempted to avert the accident. The front of the heavy electric motor car struck the touring car and it spun around twice before it overturned, throwing the occupants into the roadway.

MacLean was thrown against the steering wheel and was then tossed about fifteen feet away. He was unconscious when found. Fowler and the others were thrown out when the car made its first turn after being struck.

The train was stopped and the crew and several passengers assisted the injured men to the office of Dr. Henry Wildman, Cherry and Maplewood street. Winnetka policemen waiting for developments at the Rawn inquest in the village hall, 300 feet from the scene of the accident, hurried to the aid of the injured also.

Later an automobile was procured and the injured men taken home. No arrests were made.

BAD AUTOMOBILE SMASH UP NEAR LIBERTYVILLE

Sunday afternoon on the Milwaukee Road near the Woodlawn Stock Farm occurred a bad automobile accident the details of which are mere or less of a mystery.

The road is rather narrow and in trying to pass another machine the wheels of a machine coming from Chicago got caught in the wheels of the other and the occupants of both automobiles were thrown violently to the ground.

Other machines coming along pick up the victims and carried them away, the people refusing to give their names to questioners. One machine was able to go on, but at a late hour the other machine, a large touring car, was still at the roadside.

One of the accident victims, an elderly lady, was taken away still unconscious and is believed to have been hurried into Chicago to a hospital. The others did not seem to be badly injured except for scratches and bruises.

The country roads were covered with machines all day and with the thick dust it is a wonder that no other serious accidents are not reported.

Can You Guess What He Meant?

"I wonder what the teacher meant about the singing of my two daughters?" "What did he say?" "He said that Mamie's voice was good, but Maud's was better still."—Cleveland Leader.

CONNOR ESCAPES IN AUTO

E. J. and E. Embezzler From Waukegan Escapes From Elgin Asylum

WOMEN AIDES IN ESCAPE

Women and Auto Driver Drives into the Grounds of the Institution and Carries Him Off in Their Car

Joe Connor, former cashier of the Elgin, Joliet and Eastern railroad Company in Waukegan, charged with shorting in his accounts, but later found to be insane by the Elgin County court, made a sensational escape from the Elgin insane asylum Monday afternoon and is still at liberty.

His get-away was without question the result of a pre-arranged plan, two women, an auto and a driver being the principals in the escape which is declared by officials at the hospital to be the most sensational that has ever been effected there.

The fact that Connor was helped to his liberty in the means mentioned, indicates that his friends or relatives believe him to be sane and that they feared inability to get him out of the asylum through regular channels.

About three o'clock a large touring car with a driver and two women slowly entered the grounds of the asylum and drove through from one end to the other. Finally the two women left the car and the driver, drove slowly back through the grounds.

Connor, who lately had been allowed to roam the grounds, waited until the machine got close to him and, as the driver slowed up the car, he leaped into the front seat and the driver then opened the car up to full speed and dashed away to the gate leading from the grounds. There the two women were still waiting and the car was halted till they got aboard and then dashed on up the street into the heart of the city.

The alarm was sounded at once by employees who witnessed the whole affair and the hospital heads at once started searching after Connor and his aids but were unable to get any trace of them. Doubtless all necessary arrangements had been made to get him to a place of security at once.

The affair is enshrouded in mystery. Connor, it is recalled is a nephew of the County Clerk of Kane county and his relatives are influential there. His sudden incarceration in the asylum after he had suddenly disappeared from Waukegan following charges that he had been short in his accounts for the railroad was a surprise and now his sensational escape is a greater one.

If Connor is insane why do his relatives or friends wish to have him free?

If he was sane, why could they not have had him released in the proper manner, for the asylum authorities are only too glad and willing to let sane persons go for they are always crowded?

are the two questions that are being asked but not answered.

Two weeks ago Connor was visited by two women at the asylum and they are believed to have been the same two who aided in his escape and it is new thought that his escape was planned at this visit.

The attendants attempted to secure the number of the car which they claim was 23380. Upon inquiry it was found that the car was owned by the Chicago Motor Company, and although it was a hired car used for the purpose it is thought that perhaps it may prove a clue in the locating of Connor.

Journey Letter.

When a friend starts on a journey, particularly if the journey be tinged with the sadness of separating from loved friends, give her journey letters, one for each day, or, better still, one for each morning and a good night letter as well. These need not always be personal letters. A collection of funny or interesting stories pasted on a sheet of paper and placed in an envelope will do for one day, a magazine for another, a helpful booklet for another, a box of candy for another. A loving, thoughtful message for each day which is taking the friend farther from you in miles but not in thought. A trip across the country may be a panoramic view of beautiful scenery, or a man or woman left to say—"I will redress that wrong, or spend my life in the attempt."—Charles Kingsley.

WORK BEGINS MONDAY

Force of Graders to Start on Palatine-Wauconda Electric Line

Actual work on the Wauconda-Palatine electric road promoted by Robert D. Wynn and Attorney Justin Orvis of Waukegan will begin next Monday when a force of graders will start operation on the right of way which has now been secured to the last inch for the twelve mile stretch.

The road will proceed between the two town via Lake Zurich, \$100,000 has been raised to build it and the right of way has for the most part it is reported been donated. The two towns and the vicinity have been fairly crying aloud for railroad facilities and the resultant trade boom.

The farmers and towns have from the start taken to the scheme with avidity and it is confidently expected that cars will be running before long. The scheme is to bond this twelve miles of road to build further into the Fox Lake region and eventually down to Waukegan. The promoters have been indefatigable. The company holds a Grays Lake franchise. That is, the old company secured one and probably the reorganized company will get possession of this if possible.

According to the Palatine Enterprise which arrived in the city, there is talk of electing C. H. Patten of Palatine as president of the road, which will be called the Waukegan, Rockford & Elgin Traction Company. Wauconda Lake Zurich and Palatine each choose representative to the road directorate and Patten is said to be slated. Headquarters of the road are for the present at the Palatine bank. A large corps of surveyors are working on the road and several routes have been laid.

Grading will start from both ends of the road.

Daniel A. Grady, ex-chief of police and prominent citizen, has been made Waukegan representative and will handle the company's stock.

NEW PHONOGRAPH NEEDLE

Highland Park Man Invents New Jewel Pointed Phonograph Needle

After four years of experimental work Samuel Levin of Highland Park has perfected a permanent needle for reproducing phonograph records, for which he has already been offered hundreds of thousands of dollars. One firm alone has endeavored to get Mr. Levin to sign a contract to furnish the improved points for \$90,000 during the life of the patent.

Levin's permanent needle is made on an entirely new principle in the shape of a crescent and the point of contact is a jewel which is declared to be indestructible.

Until now all of the needle points have been made of metal, having a sharp point. Mr. Levin claims to have discovered that the sound is not reproduced at the point, but on the sides of the point and asserts that there is no scratching or metallic sound of any kind when his invention is used and that all sounds are perfectly reproduced.

Previous to his latest invention Mr. Levin, who is a jeweler at Highland Park, had invented a quill needle which was much superior to the metallic needles. The trouble with the quills was that they could not be depended on to work well in reproducing more than 150 records and some failed to last that long.

The new jeweled points are declared to be the best in the world and to be absolutely indestructible. Mr. Levin has received many flattering offers for the sale of the patent and for the payment of large sums as royalties, but has declined them all. He has decided to manufacture the jeweled points himself and will not make the mistake of most inventors by letting the valuable invention get out of his control.

The patent on the device was granted on May 17 of this year. Mr. Levin is one of the leading business men of Highland Park and will be able to obtain all of the capital that he needs for the manufacture and sale of his invention in Lake county.

Changed His Mind.

"You folks used to have a justice out here who was noted for his vildness toward scorching automobilists," says the visitor to the suburbanite. "What's become of him? Has he retired from office?" "No," explained the native, "but, you see, he saved enough from his fees last year to buy himself a roadster."

Chivalry Still Existent.

Some say that the age of chivalry is past. The age of chivalry is never past, so long as there is a wrong left unredressed on earth, or a man or woman left to say—"I will redress that wrong, or spend my life in the attempt."—Charles Kingsley.

FOWLER TO ENTER THE RACE

Will Probably Run for Congress to Oppose George Edmund Foss

FOSS CALLED A WEAKLING

Drastic Resolutions Have Been Adopted by a Chicago Organization Attacking Congressman Foss

Frank T. Fowler of Chicago, visited Waukegan Saturday and when interviewed as to the truth of the report that he will be a candidate for Congress from this district in opposition of Congressman Foss, stated that he is considering entering the race, seriously but has not fully made up his mind. He states that he is being urged to enter the race by his many friends in the southern part of the district and will probably announce his candidacy this week.

Mr. Fowler said: "I am an insurgent and if I enter the Congressional race I will make my campaign on insurgent lines, I am in favor of Theodore Roosevelt and his policies and am opposed to the Aldrich-Cannon combination."

I have resided continuously in this congressional district and have held the position of Commissioner of Public Works in Chicago for five months and during that time have raised the standard of efficiency of the department to a considerable degree. If I decide to become a candidate and should be elected the citizens of Lake County may rest assured that I will never forget my friends and will power to advance kegan and the county."

That the campaign memorable one is assured up will be the stand pat surgents. The people will surgents in their fight "vested interests" and alien tenth congressional district th lican voters have organized a gent club. A large sign near the western depot at Ravenwood announcing the location of the club's headquarters has attracted much attention.

The Young Men's Political association of the tenth congressional district of Illinois, claiming a charter membership of 100 and an ultimate membership of 1000 has started out to clean up the standpaters in congress upon its own account.

It is directing its present energies against Congressman George Edmund Foss and is supporting Richard J. Finnegan, his opponent. The idea of the organization, as expressed in an address to the young men of the United States is to break away from party ties and to urge the election to congress of men who will be free of obligation to any political organization.

Drastic resolutions have been adopted by the organization attacking Congressman Foss, according to the statements of David D. Stansbury, William McKinley, and Julian Horine, members of the executive committee.

Referring particularly to the tenth district, the resolutions say:

"We propose to replace a lackadaisical congressman, who, in order to retain a coveted committee chairmanship, has eaten from the hand of the ring that rules congress, a weakling who, in spite of an almost universal demand from his district that he live up to previous declaration for tariff 'revision,' did not raise his voice in the house of representatives while the infamous Aldrich-Payne tariff measure was under consideration, except to repeat 'aye' and 'no' after word of its authors; a professional office holder who seems to feel that a party machine owes him a re-nomination and re-election in spite of his flagrant inactivity in behalf of his constituents; a professional office seeker who, by his clawing for the position of United States senator after the members of his party had spoken at a regular primary election in favor of another man, fostered the disregard of the expressed party will that had its denouement in a noisome scandal in our state legislature."

Poor Service.

As the fire truck came clanging along the street car tracks Uncle Ben stood at the corner and waved his hat. "Ding it!" he exclaimed when the truck had passed. "That wouldn't stop, neither."—Buffalo Express.

DREADFUL ORDEAL FOR CHILD

With Brain Paralyzed, but Perfectly Conscious, They Prepared Her for the Grave.

Reading accounts of the cases of premature interment related at the meeting of the Association for the Prevention of Premature Burial, the lady of Bournemouth, England, was prompted to tell the story of her own narrow escape.

Fifty years ago my grave was got ready in Hadlow churchyard in Kent, and it is still waiting for me. I had a long and peculiar illness. I had been staying with cousins who lived at a country house not far from Tonbridge. During our play one of the boys kicked me accidentally on the head, and this was the beginning of an illness during which I was powerless to speak or move. It was a kind of brain paralysis—I suppose not so well understood 50 years ago as now.

Both the local doctor and a London specialist regarded my case as hopeless. Although unable to speak or to move, even to flicker an eyelid, I was perfectly conscious of their presence and of all they said concerning my case. My father was very ill at the time, and later I know that he was dead, and that the undertakers were in the house. But I could make no sign.

"But the awful moment, the horror of which is still with me, came when my nurse began to lay me out for the grave. I was conscious of everything—of the shroud and the bandages she was putting round my face. I heard the nurse say to my mother, who had come to take a last look at me: 'She has been dead for hours; she is quite cold.'"

"As my mother bent down to look at me I opened my eyes. All I remember is seeing her fall backwards, and then I passed into unconsciousness. The next thing I can recall is the nurse putting jelly into my mouth."

Art Treasure Recovered.

Much interest is being taken in the beautiful bronze statue of Lucilla, which King Edward had brought to Buckingham palace recently. Recovered from Lake Nemi, near Rome, the statue is said to have been one of the treasures on board the famous galley of Tiberius, which, for safety, was sunk when Rome was attacked. It stands about three feet in height and is of remarkable beauty. Now, nearly 2,000 years old, the statue was for a time housed in a small Italian museum, the contents of which were recently disposed of, and by a circuitous route it finally landed in its present resting place.

The statue is supposed to be a representation of the beautiful young sister of the Roman Emperor, Caligula, dressed in the flowing robe peculiar to ancient Rome. Her hair is arranged with fillets or golden bands, after the fashion of the Venus de Milo, and about her neck is a collar of gold. The modeling of the hands is particularly fine, and the general beauty of the statue is enhanced by the curious blue color which has spread over the whole of the torso as a result of its long immersion in the waters of Lake Nemi.

Only Oil.

"They're a little slow on the other side," says a New Yorker who spends a good deal of his time on the continent; "and while the stuffy little European railway carriages are now lighted with electricity my memory goes back to no remote time when oil was used."

"One night in Austria, during a bad storm, I was aboard an express just pulling out of Vienna, in a first class carriage, when we sprung a leak. Drop after drop, warm and dirty, fell upon my hat and coat."

"See here, guard," said I, after a long wait for that functionary to appear. "This won't do, you know! The rain is coming through the lamp hole and ruining my clothes."

"The guard investigated. Then, reassuringly, he said:

"That's not rain, sir. It's only oil. The lamp leaks a little, but the roof is quite sound, I assure you."

"Then the whistle blew, and he darted away."—Harper's Weekly.

Cromwell's Burial Place.

Does Northborough church, near Peterborough, contain Cromwell's bones? The only positive evidence to that effect, says the Church Family Newspaper, is that of the nurse who saw the hearse containing them driven by night through Huntingdon, not stopping there, as she hoped and expected, but taken further north, and also that of the postboy who said he was paid the mileage fee to Northborough. There is no indication of them having gone so far north as Newbury abbey, although a stone in the passage there says: "Under this stone rest the bones of Oliver Cromwell," etc., and the facts of Cromwell's widow coming to live here and being herself buried here are in favor of the persistent tradition in the parish that Cromwell was secretly buried here and another body substituted for his on the night that it lay at the Red Lion, Holborn.

Historic Doubles.

Those "almost" perfect doubles, George Du Maurier and Sir Laurence Alma-Tadema, were nearly indistinguishable. The story goes that a lady sitting beside Du Maurier at dinner started conversation by "pooh-poohing" all idea of a resemblance.

"You know, Mr. Alma-Tadema, I think it's absurd to say that you and Mr. Du Maurier are so awfully alike. There's really no resemblance at all. Don't you agree with me?" "Quite," was the polite answer, "but you see, I happen to be Mr. Du Maurier!"

A Famous Joke.

Though unquestionably many of Punch's jokes are deliberately manufactured, or else improved from actual incidents, a vast number are used with but slight textual editing, just as they occurred. Thus Joe Allen it was—the light-hearted artist to Punch's first number—who provided Mr. Du Maurier years afterward with that "social agony" in which a great lover of children, invited to a juvenile party, bursts into the room with the cry of "Here we are again!" walking in on his hands like a clown, to find that he has come to the wrong house next door and was scandalizing a sedate and stately dinner party.—Life.

County Clerk

OF LAKE COUNTY

Subject to the Decision of the Republican

Primaries to be held

THURSDAY, SEPTEMBER 15, 1910

New Story of Whistler.

Appropos of the exhibition of the works of Whistler at the Metropolitan Museum of Art in New York, a well known mural painter of this city, stands for a new story of him who was known as "The Only One."

"It was at a gathering of painters," said Mr. Harris, "and the talk turned upon impressionism, or, at least, Whistler turned his talk in that direction and the others listened. There was in the company an artist who was notoriously impecunious, for he was constantly borrowing small change."

"When I look at the sun," said he, "and then turn away I see blue and red spots the size of dollars all over the landscape."

"My dear fellow," drawled Whistler, "are you quite sure you don't see half dollars?"

A clearance of our boys' \$3.50, \$4.00 and \$5.00 wash suits made from the finest grades of mercerized poplins and piques, French linens and madras; plain colorings, beautifully made and trimmed, ages to 6 years, sale price

2.35

The **Globe**

DEPARTMENT STORE

WAUKEGAN'S BEST AND BIGGEST STORE

Iron Beds

200 heavily enameled beds, four distinct patterns, white and colors; they are \$6.00 and \$5.00 values but, owing to the fact that they were purchased at a remarkable discount, we are enabled to price them at

3.85

Great Clean-Up Sale

We have caused a terrific bombardment of prices so as to clean up summer stocks

Prices have been shattered again. This time below all former recognition—our motive being to enact a clearance that will leave our shelves and tables destitute of all surplus stock. Every department has been made the object of a thorough reconnoiter, with the result that all merchandise, of a summery nature, has been subjected to a terrific bombardment in price—gone down with great slaughter. Visit any department you like and you will not go away disappointed—in fact, you'll find a bargain surprise at every turn

Clean-Up of Wash Suits

There are about 50 suits embraced in this lot, all splendidly tailored garments, some of French linen in white and an exhaustive range of leading shades, others of pure linen in natural color, values range up to \$0.00, sale price

2.89

Wash Dresses Deeply Cut

We have failed to consider the former selling prices and made reductions which will enact a quick disposal. In this lot are dresses of fine lingerie, dotted Swiss, linen finished suiting, gingham and figured lawns, values to \$4.00, choice

1.69

Bobby Burke is booming Harrison for mayor of Chicago. How about that "untrue" friend-business?

A Socialist paper is to be started in Waukegan but Mayor Buck has not yet offered to lease the city jail as a beer garden.

Some of those Waukegan politicians will sit up and take notice after Sept. 15th. Watch the smoke as it rises about that time.

We have got to have Mr. Shurtleff back in the legislature if for nothing more than to beat that \$20,000,000 waterway steal.

The Lake County Democratic Central Committee is in on the fact that Lynch is going to run for the legislature, but has the Lake View bunch put it wise yet as to who runs for Congress?

It now commences to look as if Wayman was running amuck. Only last week he put a stiletto into the virtue of the ingenious chief executive of our great state. Even the halo of the sainted Walter Fisher is not safe in Chicago these days.

It is bravely heralded in the public prints that our "valiant Governor has

girded his loins and is now ready to do battle with the wicked "bi-partisan alliance," as he calls it. The girding of his loins should appeal at least to the White Cross League.

Congressman Snapp has decided that discretion is the better part of valor. He will not be a candidate for re-election. The News predicted as much when it learned that Shurtleff and Copley were after his scalp. This ought to make the chances of Mr. Cenn of Woodstock go way above par.

Mayor Howard Vickers of Harvard is thinking of going into the Republican primary for the legislative nomination. Don't do it Howard, for while you may know the difference between a collar button and a pair of pants, being in the gent's furnishing business, yet there is a man over in Marengo that knows so much more than that, we would fear and it would be with trembling, the ultimate result, for you.

To This Low Estate

George Edmund Foss is facing a revolt. Let it be broken to him courteously. Let no one cast a brick when a safe pillow will be just as effective. To proceed, and we reprint what is to follow with our foot pressed on the soft pedal with all our might.

The Record-Herald of the 25th inst. says: "Organization formed in Lake View to beat Foss. Non-partisan in its make up. A call to young men, etc., etc."

The News at some trouble has leaked up the virility of the above scare head in this Chicago paper and finds all and more to be true. An organization has been formed with more than a hundred working members that have secured a campaign fund and they have issued a "call."

The "call" is the hornet in the vinegar. The ingratitude of Republicans cannot be more emphatically shown than

to reproduce some of the subject matter of this "call."

It says, "We propose to replace a lackadaisical congressman who in order to retain a coveted committee chairmanship has eaten from the hand of the ring in Congress; a weakling, did not dare raise his voice while the infamous Aldrich-Payne tariff measure was under consideration; a professional office-holder who depends on his flagrant inactivity for re-nomination at the hands of his constituents."

There is more in the "call" than the above but the News cannot go further. That the chairman of the naval committee, probably the most important committee in this civilized world and may be the next, should be subject to such ungentlemanly rhetoric stuns us.

There are abominations that he will not descend to by using any more type.

A Distinguished Citizen

That the primary petition of Edward D. Shurtleff has been filed at Springfield, the Republican voters of the 8th Senatorial district may be congratulated.

No man in the state of Illinois outranks him. He is a masterful man in every sense of the word. He has been a power in the party councils, he has been a dominating personality in all the big concerns of the state government for almost a decade. He has made the big fellows of Chicago and likewise the clever ones from down the state come to see him and they have had to come to the little town of Marengo over in McHenry county where he was raised, and lives and is proud to make his home.

Net that a strong man cannot make himself felt anywhere but it is only the exceptionally strong man that can accomplish what Edward D. Shurtleff has done.

Consider Northern Illinois from the standpoint of Republican politics before Edward D. Shurtleff forged to the front. In all the years that preceded his advent never a Republican in this end of the state (and for that matter even a Democrat) has scratched a match in the glorious progress of our great commonwealth. For a period that for a time seemed almost endless the statesmen and politicians from way down state, the chaps from Sangamon and McLean counties, ran the whole thing with a high hand. They named the state tickets, the U. S. Senators, the Speakers of the House and even the policemen at state fairs. Never a look in did any one get north of the Hennepen canal until Chicago gathered to her bosom enough of the off scourings of Europe to out vote the gentlemen of Bloomington and

Springfield and then in a way Chicago got to her own.

From that babel came a U. S. Senator or two, an Altgeld in a sneeze and finally in a cough, a Deneen.

But with Chicago in the chariot side by side with Bloomington and Springfield there was still not standing room only, for the rest of this great state up here until Edward D. Shurtleff came along. We were still the has beens or rather the never wases and would be until the end of time did not a gladiator come from our midst who was big enough and strong enough to either get into the chariot or tip it over.

Shurtleff has done both. He got into it because they could not keep him out and then he got out of it because he didn't like the looks of some of the bunch and he proceeded to tip it over. And because of this we hear the wallings of Deneen, Busse, et al., but we believe he was right; it is time they walked.

Edward D. Shurtleff is the Mesas who led us out of Egypt or the country contiguous thereto. We are new on the map and have been for a number of years, due solely and entirely to this representative, our representative, of the 8th Senatorial district.

We Republicans of Lake county are proud of being accessory before the fact of making it possible the career of Mr. Shurtleff and we are further responsible in seeing that the one big man in the Republican party in northern Illinois is kept where he can make us count for something.

No man in high official station can please everybody not even all the members of his own party. Mr. Shurtleff has received his share of criticism. His exalted position as Speaker of several assemblies has naturally brought him enemies, but the enemies are such in most every instance that he can be like old Gen. Bragg of Wisconsin, he may be proud of them.

Edward D. Shurtleff is a man of integrity and honor. Never has he been charged with taking a dishonest dollar, never have his motives been impugned in a discreditable way. As for his statesmanship and capacity, it tells for itself.

The Chicago Tribune of last Sunday has a column editorial over our Mr. Shurtleff. It opposes him naturally at this time from the fact that he won't receive the dictation of the Harvester Trust. Nevertheless this same paper of uplift and monopoly acknowledges in so many words that our member is a "man of great efficiency and honesty of purpose." We don't see how this organ that is supposed to make for the

things that go for good could go much further. Possibly if Mr. Shurtleff would sip gruel from the bowl of His Innocence, the Gov. Deneen, this great moral sheet would have more to say for him.

Lake county Republicans are wise, they weren't born yesterday. The primary votes and the election votes that follow in November are going to show that we appreciate the good fortune in being able to assist in returning to the legislature the respected and dis-

tinguished citizen of all the state of Illinois to his position of honor and trust.

Wanted—A Drawing Card.
"Hold, man! What would you do?"
"I would die! From this bridge I will leap into you mighty torrent and end it all—all!"
"Heavens! But if you must, wait 20 minutes until I can send for my moving picture machine; this will make a corking film!"

The Rev. J. E. Lynch announces the following schedule for services for the summer months beginning July 1st. Services will be held at Lake Villa at 9:00 a. m., at Fox Lake, (Ingleside) at 10:30, and at Antioch at 10:30 a. m. each Sunday.

A movement is on foot among the members of Olson Camp, R. N. A. and Lotus Camp, M. W. A., for the holding of a joint picnic in the near future. Further than the appointing of a committee from each lodge to talk the matter over nothing has as yet been done.

The cemetery at Mill Creek has lately been undergoing a thorough clean up and the fences made anew. Two days were spent in the work. On one the Bee consisted of 50 men and on the other of 43; everyone brought lunch, enough for an army, and before they left in the evening of the second day the cemetery looked cleanly beautiful.

M. Kissilove of Waukegan has found a new way for horse buyers to protect themselves from possible deception when purchasing a horse. The plan is to give a check in payment and in case the horse does not prove satisfactory or as warranted to stop payment on the check. Kissilove recently purchased a horse from Thomas Maag who resides near Greyslake. Soon after it was stabled in the barn of its new owner the horse died. Kissilove at once stopped payment on the check and was sued for the amount in the court of Justice Fitch of Greyslake. Maag was given a verdict but Kissilove has given notice of an appeal to the circuit court.

An auto owned and driven by Chicago parties was the cause of a slight accident on our main street Wednesday afternoon. The machine was headed north and was going at a considerable rate of speed when a rig that was going in the same direction and was just ahead of the car, suddenly turned toward one of the hitching posts on the east side of the street, thus bringing it directly in the path of the machine. To avoid smashing into the rig the driver quickly swung his car to the west and in so doing struck the hind wheels of another machine that was standing in front of Golwitzer's barber shop. This collision burst one of the tires on the oncoming machine and swung it in such a manner that it forcibly collided with Dr. Beebe's machine which was standing just a little south of his office. As a result of this both machines were damaged, the former having the front axle badly sprung and the tires coming out rather the worse for the experience. The doctor's machine which seemed to fare the worse had the radiator stove in, the damage amounting to about \$60. The stranger readily agreed to pay for all necessary repairs and after taking some time to put his tires in a running condition he towed the other machine to the garage where both were placed for repairs.

A Sound Exchange.
"George's father sent him money to employ a tutor at college and what do you think he did with it?" "What?" "Bald he would combine his father's instructions with his own wishes and hire a chauffeur."

Notice to Horse Owners.

Having had years of experience I will be on the road castrating colts as usual. All communications will be promptly attended to. John McGuire, Antioch, Ill. 30-11

A FEW FACTS
REGARDING
SEWERAGE

On Tuesday of last week a committee consisting members of the Antioch Village Board took a trip to Libertyville for the purpose of inspecting the septic tank and sewer system of that village.

Of late there has been considerable agitation on the part of some of our citizens relative to the inauguration of a sewer system in our village and it was because of this that the board of trustees took the step they did last week.

They report having seen one of the best and most sanitary systems of sewerage to be seen in any village in the state. The septic tank is 40 by 50 feet and eight feet deep, built of concrete and has an outlet of 12 inch tile which empties into the Desplaines river about three-fourths of a mile east of the village proper and one-half mile east of the location of the septic tank. The water which passes through this tile is as clear as any water and has no odor whatever.

The system, including the laying of a 12, 10 and 8 inch sewer pipe over three-fourths of the corporation, installing the septic tank and the 12 inch drain to the river, cost the village approximately \$30,000, the septic tank costing \$1,500 and the drain to the river from the tank costing \$3,500. This leaves the cost of laying the street sewer \$25,000, or about twice the amount it would require to sewer the streets of Antioch.

The above are the facts gleaned by the committee and if anyone desires to express his views on the matter or has any suggestions to offer this paper will be pleased to receive them and devote its columns to the cause.

Canada Thistle Notice

Notice is hereby given to all property owners, occupants or renters in the town of Antioch, to cut all Canada Thistles and noxious weeds growing on their land or upon the highway along in front of their land, under penalty of law, as prescribed by the Statutes of the State of Illinois. Chas. F. Richards Thistle Comm. 42 tf.

Glasses for the Wine.

The custom of setting several glasses for each kind of wine before each guest belongs to the nineteenth century. In the eighteenth century the glasses were dipped, at each new wine, into small earthenware vessels filled with water, which were placed on the table within the reach of all the guests.

Treatment for Boils.

Apply a plaster of gum opium; if that is not convenient, powdered opium mixed with a little mercurial ointment. It relieves the pain and controls the inflammation and the increase in size. In two or three days a limited amount of suppuration will take place and the small core come out.

ORDER TROOPS TO BE READY

One Man Shot and Three Detectives Arrested—Attempt to Derail Train Is Frustrated by Alertness of Engineer.

South Bend, Ind.—Governor Marshall Sunday night ordered Capt. Charles B. Calvert, Company F, Third Infantry, of this city, to hold his troops in readiness to assemble at a moment's notice. There was sporadic rioting in the Grand Trunk yards all day by mobs of strikers and their sympathizers.

Grand Trunk officials announced that no attempt will be made to move any passenger trains through South Bend, orders having been issued to cancel all passenger service to or from the city. Advice from all along the Grand Trunk system is to the effect that strikers are quiet at all points except at South Bend.

Strikers, or their sympathizers, attempted to derail east-bound passenger train No. 8 at Olivers, the first station at which Grand Trunk trains stop when entering South Bend. The engineer saw the throw switch just in time to bring his train to a stop and prevent heavy loss of life.

J. Freel of South Bend was seriously wounded by John Peck, a detective of Battle Creek, Mich., who with Eldridge Graham and William McReynolds, also of Battle Creek, are under arrest. Freel was shot in the back and is at Epworth hospital. A mob burned two cabooses and attempted to destroy several freight cars but the arrival of police and fire department foiled the plan.

A freight train of 50 cars was stalled for seven hours by some one cutting the air hose and taking the couplings, and it tied up five passenger trains. The police are authority for the statement that the stalling of the freight may not have been the work of strikers but of men in the employ of the company, the police believing that the move was brought about as a part of a plan to get state troops in the field and thus break the backbone of the strike by turning public sympathy away from the strikers.

Montreal, Que.—Vice-President James Murdoch, representing the general committee of the Grand Trunk and Central Vermont conductors and trainmen, in a telegraphic message to Ottawa Friday, accepted Minister of Labor King's suggestion for arbitration of the Grand Trunk wage dispute by a board to be named by the government mutually satisfactory to both parties involved.

An official statement issued by the company says: "The situation continues to improve. Every scheduled passenger train on this division is now in operation. Way freight left Montreal Friday for the west and a fast freight for the south. Way freight left Portland and another left Gorham, N. H."

As the result of an outbreak on the arrival of a Grand Trunk train from Toronto Friday, John McLann, its acting conductor, and M. Donovan, brakeman, are in a critical condition. As the men left their train they were set upon by a hundred or more persons and severely beaten. The injured men were carried into a hotel, which was shortly afterward bombarded by stones and considerably damaged.

Lansing, Mich.—Acting Superintendent Ehrke of the Grand Trunk appealed to the street railway commission Friday for state protection of railroad property during the strike, claiming that railroad property is being destroyed in some places, train service interrupted and strikebreakers threatened. Chairman Glasgow referred him to Governor Warner. The latter is at present in the upper peninsula.

\$80,000 IN BONDS STOLEN

American Agency of Russo-China Bank at New York Report Theft of Securities.

New York.—Bonds and other securities, the market value of which is estimated to be about \$80,000, were officially reported as having been stolen from the American agency of the Russo-China bank. The par value of the securities is \$66,000.

Profound mystery and secrecy were maintained by everybody supposed to be in a position to have information as to the theft.

Freed to Help Harvest Crop. Georgetown, Ky.—A novel method to save the wheat crop of Scott county was resorted to when a number of farmers appeared before the county judge and paid the fines of ten prisoners in the jail in order to get help to harvest the crop.

Mine Fire Imperils 200 Men. Torre Haute, Ind.—The Hocking coal mine of Farmersburg, Ind., was damaged Saturday to the extent of more than \$75,000 by fire. Two hundred men who were in the mine narrowly escaped death by leaping through the manway.

Manila Fire Kills American. Manila.—Frederick Bonner, former assistant secretary of public works here, was burned to death Saturday in a fire in his residence. Mr. Bonner's home was in New Mexico.

COMMENDS OFFICERS WHO AVERTED SECOND EXPLOSION.

Lieut. Hawes Fights Fire With Bare Hands and Stops Further Disaster.

Washington.—Stories of valor and sacrifice in time of suffering and confusion were detailed to General Wood, chief of staff of the army, and other officials of the war department upon the return to Washington of officers who witnessed the explosion of the big gun in the first minute of battle practice at Fort Monroe which resulted in eleven deaths.

These personal reports were augmented by further telegraphic reports from Lieut. Col. C. P. Townsley of the coast artillery corps, commandant of the fort.

Lieutenant Hawes is praised by the commandant for having extinguished with his bare hands burning material that threatened to ignite the second charge, which was on its way to the emplacement.

Conspicuous in the group of those whose heroic conduct attracted attention was Lieutenant Van Deusen, who suffered a broken leg from the body of one of his men being hurled against him. His body also was burned by gas. He was the timekeeper during the target practice.

Following the receipt of the reports General Wood sent a telegram to Fort Monroe expressing his sympathy for the bereaved and suffering, and his appreciation of the "excellent conduct" of the officers and enlisted men.

The war department has begun a rigid investigation to determine the cause and fix the responsibility for the explosion of the gun.

700 HEMMED IN BY FLAMES

Towns of Bloomville and Heinemann, Wis., Menaced by Forest Fire—Railroad Tracks Burned.

Merrill, Wis.—Seven hundred persons of Bloomville and Heinemann were hemmed in Thursday by forest fire at the former town with seemingly no means of escape.

The fires have destroyed the railroad tracks for some distance between Bloomville and Merrill, making it impossible for the inhabitants of the doomed village to seek refuge in that direction.

The situation at Bloomville is critical. The 400 homeless of Heinemann fled to that village only to be confronted by a similar peril.

Gleason, north of Bloomville, is isolated by the fire, and it has been impossible to get word from the village for many hours. This leaves Bloomville with its 650 persons cut off on every side. With the population nearly tripled, the question of feeding the people is a serious one. Reports from Bloomville tell of the flight of scores of people, some going on foot and others in wagons. The loss in buildings is over \$200,000.

Several farmers' families have not been accounted for. Fields which were about to be thrashed and live stock and buildings were abandoned.

AIRSHIP HIT BY LIGHTNING

Spectacular Exhibition Is Witnessed Near Barcelona as Flyer Ehrmann Miraculously Escapes.

Barcelona.—While he was making a cross-country flight, Aviator Ehrmann's aeroplane was struck by lightning and fell blazing to the ground. The aviator escaped uninjured, which is regarded as almost miraculous.

There has never been a more startling aerial exhibition than that which Ehrmann unwillingly afforded, and those who witnessed it could hardly believe their eyes when the airman emerged from the singed framework none the worse for his experience.

He was sailing along at a moderate height when he got in the path of a skybolt. Instantly the aeroplane was enveloped in flames, its canvas wings shriveled up, and clinging to the skeleton of his craft Ehrmann came down with a thud.

WOMAN AVIATOR IS COMING

Mme. Mathilde Frank Expected to Enter in Race From Chicago to New York.

New York.—A French woman, one of the four or five women who have done serious work in aviation, has indicated her intention of coming to America shortly for the purpose of attempting a flight from Chicago to New York for the prize recently offered. She is Mme. Mathilde Frank, the French wife of a British journalist.

Mme. Frank has made several excellent flights recently. She flew fourteen miles at Mourmelon, without stopping, establishing a record as a woman aviator. She is at present preparing for a flight across the English channel from Calais to Dover.

France Accepts Washington Statue. Paris.—The French government Saturday accepted a bronze copy of Heiden's statue of George Washington, which was presented by the state of Virginia through M. Jusserand, the French ambassador to the United States.

Dickinson Arrives in Manila. Manila.—Secretary of War Dickinson arrived here Saturday. After he and General Edwards landed they were escorted to the palace by a battalion of cavalry.

WHAT ARE THE WILD WAVES SAYING?

RAVN SUSPECT IS RELEASED

DEAD RAIL CHIEF'S FORMER EMPLOYEE PROVES INNOCENCE.

"Blood Stains" in Vicinity of Crime Are Shown to Be Paint Splashes.

Chicago.—In the face of a complete crumbling away of the evidence that Ira G. Rawn, late president of the Monon railroad, was murdered for revenge by a former chauffeur and the discovery that the "blood" spots leading from the vicinity of the crime were splashes of paint, members of the family of the dead man were more firmly convinced than ever that Mr. Rawn was the victim of a trapped burglar.

Within an hour after the release of Ernest Stevens, the negro chauffeur arrested Friday night, they announced an offer of a reward of \$5,000 for the arrest and conviction of the person or persons supposed to have broken into his home and to have fired the shot that resulted in his death.

In the midst of these developments a new theory was offered as a possible solution of the mystery, that Mr. Rawn met his death accidentally. It was pointed out by Charles L. Schaeffer, superintendent of a local detective agency, that a plausible solution was on the theory of accident.

Mr. Rawn might have slipped on the highly polished stairs or on his dressing gown, Mr. Schaeffer said, and discharged his revolver and killed himself in his haste to discover the source of the noise that had awakened him.

Members of the family did not look with favor upon this new theory. Acting Chief Schuetzler and Captain of Detectives Wood announced that they had abandoned their hunt for a "murderer."

GOV. CARROLL IS INDICTED

Grand Jury Returns Bill Charging Iowa's Chief Executive With Criminal Libel.

Des Moines.—Gov. B. F. Carroll was indicted Wednesday by the Polk county grand jury here on the charge of criminal libel preferred against him by John Cowie, former member of the state board of control, whom the governor forced to resign under charges of misconduct "preferred" in affidavits by girls inmates of the Girls' Reform school at Mitchellville.

After his resignation Cowie declared he was forced to resign without justifiable cause and Governor Carroll issued a published statement in which he set forth the claim that Cowie had sold diseased cattle belonging to the state and had conducted himself unbecomingly among the girls at Mitchellville.

The governor was released on his own recognizance and will demand an immediate trial. His effort will be to prove the truth of his statements and show justification for publishing them. Under the Iowa statute the penalty upon conviction is imprisonment in the penitentiary not to exceed one year or a fine not to exceed \$1,000.

CAIRO CITIZENS NOT GUILTY

Twelve Men Charged With Aiding in Negro Lynching Are Acquitted by Jury.

Cairo, Ill.—Verdicts of not guilty were returned in the cases of 12 Cairo citizens, charged in indictments with having been leaders of the mob which stormed the Alexander county jail and lynched the negro, John Pratt, the night of February 15 last. The jury was out two hours. The court had previously ordered a verdict of not guilty for W. C. Charles, while a request for a similar verdict for George B. Walker had been made by the state's attorneys.

Solved as Lynchers' Chief. Bollefontaine, O.—Joseph Bush, alleged leader of the mob which hanged Carl M. Etherington at Newark, O., July 8, was arrested at Harper and rushed to the Newark jail Friday. He had been hiding at the home of a brother-in-law.

After the Fly in Panama. Washington.—Uncle Sam's physician and sanitary experts on the Panama canal job have eliminated mosquitoes and a crusade on the house fly has been started.

TAFT'S ANKLE IS STRAINED

President Meets With Painful Accident While Playing Golf—Puts in Busy Day.

Bar Harbor.—Once more afoot, President Taft and his party on the Mayflower left Bar Harbor Sunday night for Penobscot and Casco Bay, in which they will cruise until Wednesday, when the ship will be turned toward Beverly.

The president hurt his ankle while he was playing golf on the links of the Kabo Valley club at Bar Harbor. Despite the excruciating pain which was evidenced by a decided limp and facial grimaces each time he had to climb in or out of an automobile or train, the president carried out the exacting program which had been arranged for him. It included a speech, an automobile ride and luncheon in Bangor, and a speech and reception at Ellsworth.

The president was climbing a steep grassy slope leading to one of the greens when his right foot turned beneath him. There was some pain at the time, but Mr. Taft thought nothing of it and continued his game. Later, however, he suffered considerable pain.

Surgeon Grayson of the Mayflower dressed the injured ankle and made a thorough examination. He declared there was no general sprain, but a bad strain of some of the tendons.

NEGRO IS BURNED AT STAKE

Seiton (Tex.) Mob Revenges Death of an Officer—Two Have Narrow Escape.

Belton, Tex.—Henry Gentry, a negro, eighteen years old, paid the penalty of his crime—murder and intended assault—at the stake. Two others, a brother and a companion, charged with implication, missed a like fate only through the pleadings of Sheriff Burke and several citizens.

Gentry attempted to force an entrance into the home of Mrs. Lamb, a widow, but was frightened away with a shot by the woman's daughter. Several hours later, while Gentry was being hunted by a posse headed by Constable James Mitchell, Gentry, firing from ambush, killed the leader.

The posse surrounded the fugitive. Gentry made a dash for liberty and was shot and crippled. He was dragged behind an automobile to Belton, where several thousand men and boys waited.

SCORES SAVED BY WIRELESS

Sister Vessel Goes to Relief of Sinking Ship and All on Board Are Safe.

Charleston, S. C.—The snap and flash of the wireless, sending out the "S. O. S." the call that has superseded the "C. Q. D."—the high siren cry for help—Saturday resulted in the saving of scores of lives from the burning coast liner Monna, owned by the Southern Pacific company, off the Florida coast. News of the rescue was brought by wireless dispatches received here.

The Comus, a ship belonging to the same line, answered the call, standing by while the passengers were transferred. The advices sent out while the vessel was ablaze in twelve fathoms of water said there was a minimum of confusion among the passengers, and that nearly all, especially the women, acted with heroism from the time the flames were discovered until they were safe aboard the relief ship.

Accused of Slaying Sister. Wayne, Neb.—William Flege was arrested Wednesday on a charge of murdering his sister, Miss Louise Flege. William Elchenkamp, aged eighteen, a hired hand on the Flege farm, is also under arrest. He told the sheriff that Flege wished to marry Miss Ida Hendricks, who lives on an adjoining farm.

Kellogg (la.) Mayor Quits. Des Moines, Ia.—James Boyle, mayor of Kellogg, Ia., handed his resignation to the city council Saturday. Quator proceedings, alleging drunkenness, had been started against him by the attorney general.

Texas "Dry" Win in Primary. Dallas, Tex.—Returns received from the Texas primary held Saturday indicate that the proposition to submit to a vote of the people the proposed prohibition constitutional amendment has been carried.

RIOTERS FIRE A CAR

GRAND TRUNK STRIKE SYMPATHIZERS ROUTED BY SOUTH BEND POLICE.

PINKERTONS ARE SENT AWAY

Governor Marshall Orders Four Companies of State Troops to Be in Readiness for Immediate Call.

South Bend, Ind.—Rioting by Grand Trunk strike sympathizers was resumed Monday night when a crowd of from 1,500 to 2,000 men and boys attempted to burn a freight car which had been switched onto a crossing west of Oliver's Station. After the car had been burning for 20 minutes the fire department extinguished the flames.

It was evident that the trouble was brewing early in the evening for the mob began to congregate at the junction of the Lake Shore & Michigan Southern railroad and the Grand Trunk. As the crowd increased in size it moved west from Oliver's Station and when a freight train of seven cars and a caboose appeared on the scene an hour later it was greeted with a shower of stones, spikes and coupling pins.

As soon as the train was stopped at the west end of the yards the engine crew was attacked by several foreigners, but the arrival of Assistant Chief of Police Chappel and a squad of policemen routed the rioters for the time being. Mayor Charles L. Goetz of South Bend and Sheriff Millard F. Kerr of St. Joseph county instructed D. Cromble, Montreal, first assistant to Grand Trunk chief of transportation, who has been in this city, that all local police protection would be withdrawn from the railroad yards unless every Pinkerton detective was removed from the city. The private detectives were withdrawn.

Anticipating the possibility of trouble in the yards, Governor Marshall took time by the forelock and ordered the four companies of the First National Guard, located at South Bend, Plymouth, Warsaw and Elkhart under command to Maj. George W. Freyer, fourth of South Bend to hold themselves in readiness to move on to South Bend at 30 minutes' notice.

The governor ordered Gen. Will J. McKee, commander of the state militia, who is in the city, to remain in South Bend and keep in close touch with the strike situation. The battalion for the most part consists of experienced men, the officers with very few exceptions having been in the service from five to ten years. The strength is about 200 men.

Mayor Goetz issued a proclamation urging all inhabitants to refrain from gathering in crowds on the streets and to assist in preventing order.

RAVN WAS WORTH MILLION

Will of Slain Railroad Chief Filed for Probate—Widow Gets All—Home Under Guard.

Chicago.—To Mrs. Florence Willis Rawn, widow of the late I. G. Rawn, president of the Monon railroad, who was found dead last Wednesday in his summer home in Winnetka, is given all the property left by the late railroad chief, according to the terms of his will, filed with the assistant clerk of the probate court Monday. Mrs. Rawn is named executrix under the will. The estate is supposed to be valued at over \$1,000,000.

A grand has been placed in the Rawn home by Samuel H. Greeley, president of the village board of Winnetka, because he has learned that "material evidence as to facts concerning the death of the railroad official have been and may be suppressed."

A letter was sent to Mrs. Rawn notifying her that Marshal Coutro of Winnetka would take charge of the premises until after the inquest.

J. T. Harahan, president of the Illinois Central railroad, joined forces with the Chicago police in their efforts to solve the mystery surrounding the tragic death of Mr. Rawn.

In a conference with Assistant Chief of Police Herman Schuetzler President Harahan turned over all of the evidence in the Illinois Central grand investigation that involved Mr. Rawn.

MAYOR KILLED WITH BOMB

Virginia Village Executive Is Slain Lying in Hammock by Assassin Who Throws Dynamite.

Ridgown, Va.—Former Mayor A. H. Bousman was assassinated Monday by a dynamite bomb which was thrown from the street under a hammock in which he was lying. He died an hour after the explosion. No clue to the identity of the murderer or the cause of the crime has been found.

Robel General Is Killed. Washington.—The state department was advised Monday that the revolutionists in Honduras met with severe reverses on July 22, when General Martin of the revolutionary forces was repulsed and killed during an attack on the government barracks.

Sell Eggs and Bread by Weight. New York.—Eggs and bread will be sold by weight only in Greater New York in the near future, was announced Monday by Commissioner of Weights and Measures Driscoll.

EASY TO ANSWER.

The Scholar—Who was it that climbed slowly up the ladder of success, carrying his burden with him as he went; who, when he reached the top gazed upon these far beneath him, and—
The Scholar (aged 8)—I know, ma'am. It was Pat O'Rourke, president of the Hodgekissers union.

EPIDEMIC OF ITCH IN WELSH VILLAGE

"In Dowlais, South Wales, about fifteen years ago, families were stricken wholesale by a disease known as the 'itch.' Believe me, it is the most terrible disease of its kind that I know of, as it itches all through your body and makes your life an inferno. Sleep is out of the question and you feel as if a million mosquitoes were attacking you at the same time. I knew a dozen families that were so affected."

"The doctors did their best, but their remedies were of no avail whatever. Then the families tried a druggist who was noted far and wide for his remarkable cures. People came to him from all parts of the country for treatment, but his medicine made matters still worse, as a last resort they were advised by a friend to use the Cuticura Remedies. I am glad to tell you that after a few days' treatment with Cuticura Soap, Ointment and Resolvent, the effect was wonderful and the result was a perfect cure in all cases."

"I may add that my three brothers, three sisters, myself and all our families have been users of the Cuticura Remedies for fifteen years. Thomas Hugh, 1650 West Huron St., Chicago, Ill., June 29, 1909."

An Easy Fit. A number of years ago there lived in northern New Hampshire a notorious woman-bater. It was before the day of ready-made clothing, and wanting a new suit, he was obliged to take the material to the village tailor. She took his measurements, and when she cut the coat, made a liberal allowance on each seam.

The men's dislike of women in general prevented his having a fitting. He took the finished garment without trying it on. It was much too large, and his disgust was apparent in the answer he made to the friendly toiler on his first visit to the postoffice, when he wore the despised article. "Got a new coat, Obed?" said the loafer.

"No, I haven't," said Obed. "I've got seven yards of cloth wrapped round me."—Youth's Companion.

How He Kept the Law. "I noticed," said the friend-who-could-be-trusted, after a trip through the factory where preserves are made, "that a white powder is first put in the cans, and that the preserves are then put in the white powder."

"Yes," explained the proprietor to the friend-who-could-be-trusted, "that white powder is a preservative. You see we are compelled to put the preserves in a preservative because an idiotic requirement of the government makes it unlawful for us to put a preservative in the preserves."

The Home of the Cod. There is just one other good cod bank in the world besides those off Newfoundland. It lies off Cape Agulhas, which is the southern tip of Africa, and south of the Cape of Good Hope. The Agulhas plateau is said to be almost a duplicate in size and richness of the north cod banks. But this is too far off, so there is little promise of its appeasing the hungry appetite of the world for cod.

Real Novelty. Knockor—Say, here's an original baseball story.

AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md. — "For four years my life was a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all-gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though now life had been given me, and I am recommending it to all my friends." — Mrs. W. S. FORD, 2207 W. Franklin St., Baltimore, Md.

"The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and to-day is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed."

"If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial."

If you would like special advice write to Mrs. Pinkham, Lynn, Mass., for it. She has guided thousands to health, free of charge.

Immense Saving Possible.

In a preliminary bulletin on the cost of maintaining a tuberculosis sanatorium, the National Association for the Study and Prevention of Tuberculosis announces that the average cost per patient per day in thirty semi-charitable sanatoria scattered in all parts of the United States is \$1.665. These institutions represent an annual expenditure of over \$1,200,000 and over 815,000 days of treatment given each year. The bulletin, which is part of an extensive study the National association is making for its bureau of information, points out that the country could save annually at least \$150,000,000 if the indigent consumptives were properly segregated.

A Knowing Girl.

When young Lord Stanleigh came to visit an American family, the mistress told the servants that in addressing him they should always say "Your Grace." When the young gentleman one morning met one of the pretty house servants in the hallway and told her that she was so attractive looking he thought he would kiss her, she demurely replied, clasping her hands on her bosom and looking up into his face with a beautiful expression, "O Lord, for this blessing we are about to receive, we thank thee." — Lippincott's.

The Deacon's Parable.

A self-conscious and egotistical young clergyman was supplying the pulpit of a country church. After the service he asked one of the deacons, a grizzled, plain-spoken man, what he thought of his morning effort.

"Well," answered the old man, slowly, "I'll tell you in a kind of parable. I remember Tunk Weatherbee's first deer hunt, when he was green. He followed the deer tracks all right, but he followed 'em all day in the wrong direction." — Housekeeper.

The Modern Idea.

"And you don't love him?"

"No."

"Then why marry him?"

"Oh, I might as well. Every girl has to have a foolish marriage or two before she really settles down."

A crazy person thinks every one else is insane, and love is blind because it imagines everybody else is.

STRENGTH AND CHEAPNESS OF ROUND DAIRY BARN

Several Points of Superiority Over Rectangular Formed Structure Have Never Been Fully Considered.

Round Dairy Barn.

In the early days when lumber was cheap, buildings were built of logs, or at least had heavy frames. Under these conditions the rectangular barn was the one naturally used, and people have followed in the footsteps of their forefathers in continuing this form of barn. The result is that the economy and advantages of the round barn have apparently never been considered. This is because they are not obvious at first sight, and become fully apparent only after a detailed study of the construction. For these reasons, the rectangular form still continues to be built, although it requires much more lumber. As the price of lumber has advanced so materially in recent years, the possible saving in this material is a large item, and well worth investigating.

The difficulty with most round barns that have been built, thus far, is that they do not have a self-supporting roof, and consequently lost many of the advantages of a properly constructed round barn. This is the principal reason why round barns have not become more popular. A straight roof necessarily requires many supports in the barn below. These are both costly and inconvenient, and make the roof no stronger than a dome-shaped, self-supporting roof which nearly doubles the capacity of the mow.

Many who have thus disregarded capacity have also wasted lumber and made a needless amount of work by chopping or hewing out the sill and plate, thus requiring more labor and lumber, besides sacrificing the greater strength of a built-up sill.

Another reason for the scarcity of round barns is the difficulty in getting them built. Most carpenters hesitate to undertake the work because in the erection of a round barn the construction should be entirely different from that of the rectangular form. Many new problems present themselves, but when these are once understood, the round barn offers no more difficulties in construction than the rectangular form.

The first thing to consider in the erection of a barn is a convenient arrangement for the purpose for which it is to be used.

Considering that the barn on a dairy farm is used twice every day in the year, and that for six months each year the cows occupy it almost continuously, and that during this time

a large amount of the labor of the farm is done inside the barn, it is evident that the question of its convenience is a vital one.

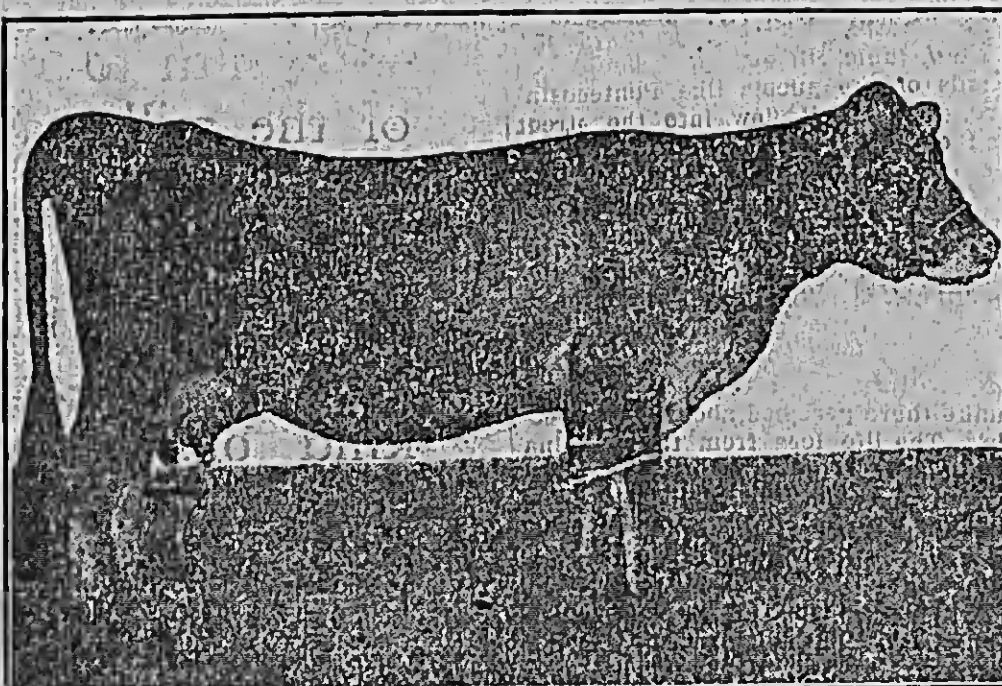

The circular construction is the strongest, because it takes advantage of the lineal, instead of the breaking strength of the lumber. Each row of boards running around the barn forms a hoop that holds the barn together. A barrel, properly hooped and headed, is almost indestructible, and much stronger than a box, although the hoops are small. This strength is because the stress comes on the hoops in a lineal direction. Any piece of timber is many times stronger on a lineal pull than on a breaking stress.

All exposed surfaces of round barns are circular, as both the sides and roof are arched, which is the strongest form of construction to resist wind pressure; besides, the wind in striking it, glances off and can get no direct hold on the walls or roof, as it can on the flat sides or gable ends of a rectangular structure. If the lumber is properly placed in a round

The circular construction is the strongest, because it takes advantage of the lineal, instead of the breaking strength of the lumber. Each row of boards running around the barn forms a hoop that holds the barn together. A barrel, properly hooped and headed, is almost indestructible, and much stronger than a box, although the hoops are small. This strength is because the stress comes on the hoops in a lineal direction. Any piece of timber is many times stronger on a lineal pull than on a breaking stress.

All exposed surfaces of round barns are circular, as both the sides and roof are arched, which is the strongest form of construction to resist wind pressure; besides, the wind in striking it, glances off and can get no direct hold on the walls or roof, as it can on the flat sides or gable ends of a rectangular structure. If the lumber is properly placed in a round barn, much of it will perform two or more functions. Every row of siding boards running around the building serves also as a brace, and the same is true of the roof boards and the arched rafters. If the siding is put on vertically and the roof built dome shaped, no scaffolding is required inside or out. These are points of great economy in the round construction.

EXCELLENT BROWN SWISS COW

The Brown Swiss is one of the standard breeds from Switzerland. It has become generally distributed throughout Europe and was first imported into the United States in 1869. Brown Swiss cattle are well adapted to conditions when a combination of dairy and beef production is sought, says Orange Judd Farmer. The size is medium; cows weigh 1,200 to 1,300 pounds. The quantity of milk is moderately large (and the fat content good. According to the American standard, the color is dark to light gray, or some seasons of the year gray. The attractive cow, homo shown, Folie 1652, was bred in New York and

Sowing Late Cabbage.

It is time to sow late cabbage in all sections. See that the seed bed is fine and moist. Cover seed with not less than three-fourths of an inch of soil and do not sow too thickly. Thin sowings encourage the growth of strong, stalky plants which stand transplanting better than spindling plants.

Always pick vegetables for the market before they are fully matured, as they are then more apt to ripen in the proper time for the user.

SKIN TROUBLES

A Healing Ointment With a Wide Range of Usefulness

A letter from Mrs. I. E. Cameron, Graduate Nurse, Augusta, Me., says: "I must write and tell you the good Resinol Ointment has done. I applied it to an ulcerated leg of six months' standing. Almost everything had been tried to heal it. Resinol was applied twice a day for four weeks, and the ulcers are entirely healed. It is now six months since the treatment and no indication of a return of the trouble. I have used Resinol for eruptions on children's faces, and for everything that seemed to need an ointment, with satisfactory results in every case."

Mrs. F. Cox, Chicago, Ill., says in another letter: "I cannot speak too highly of Resinol Ointment and Soap. They cured my baby boy of Eczema. He had a very severe case. Numerous other remedies had been tried and failed to do any good. I would not be without them in the house."

The first application will relieve the itching and irritation in skin diseases, and stop the pain in burns or scalds. Chancres, Scurf, Pimple, Eruptions are often cured by an overnight application.

Resinol Ointment, Resinol Soap and Resinol Medicated Shaving Stick are sold at all Drug Stores.

Ask for booklet on care of the Skin and Complexion, or send stamp to us for sample and booklet. Resinol Chemical Co., Baltimore, Md.

HIS WELCOME FOR PRODIGAL

Cowboy Would Have Reversed Proceedings as Recorded in the Scriptures.

Judge Ben B. Lindsey of the famous Denver juvenile court said in the course of a recent address in charity:

"Too many of us are inclined to think that, one misstep made, the boy is gone for good. Too many of us are like the cowboy.

"An itinerant preacher preached to a cowboy audience on the 'Prodigal Son.' He described the foolish prodigal's extravagance and dissipation; he described his penury and his husk-eating with the swine in the sty; he described his return, his father's loving welcome, the rejoicing, and the preparation of the fatted calf."

"The preacher in his discourse noticed a cowboy staring at him very hard. He thought he had made a convert, and addressing the cowboy personally, he said from the pulpit:

"My dear friend, what would you have done if you had had a prodigal son returning home like that?"

"Me!" said the cowboy, promptly and fiercely, "I'd have shot the boy and raised the calf." — Detroit Free Press.

Silenced the Critic.

Charles Sumner, when in London, gave a ready reply. At a dinner given in his honor, he spoke of "the ashes" of some dead hero. "Ashes! What American English!" rudely broke in an Englishman; "dust you mean, Mr. Sumner. We don't burn our dead in this country." "Yet," instantly replied Mr. Sumner, with a courteous smile, "your poet Gray tells us that 'Even in our ashes live their wonted fires.' The American was not criticized again that evening.

Diagnosis.

"Do you see that man going along with his head in the air, sniffing with his nose?"

"Yes, I know him."

"I suppose he believes in taking in the good, pure ozone."

"No," he's hunting for a motor garage, I believe." — Tit-Bits.

DR. MARTEL'S FEMALE PILLS.

Seventeen Years the Standard. Prescribed and recommended for Women's Ailments. A scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all Drug Stores.

She's a Free Lance.

"Would you have a pickpocket arrested if you detected one in the act of going through your pockets?"

"With one exception."

"What's that?"

"Not if it was my wife."

If You Are a Trifle Sensitive About the size of your shoes, many people wear smaller shoes by using Allen's Foot-Powder, the Antiseptic Powder to shake into the shoes. It cures "Fired, Swollen, Aching Feet" and gives rest and comfort. Just the thing for breaking in new shoes. Sold everywhere, 25c. Sample sent FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

Why He Believes Her.

Knock and the world will join in the anvil chorus.

THE REASON.

Janitor—I know the water is turned off. I'm sorry, but it isn't my fault.

Tenant—I know, and I guess that's why you're sorry.

Tit for Tat.

Being of a literary turn and having plenty of leisure, both Mr. and Mrs. Gluppins contributed special articles occasionally to two different newspapers in the town where they resided. One day Mr. Gluppins picked up a manuscript his wife had just finished, and proceeded to look it over.

"That's very good, Bertha," he said, after completing his inspection, "but I see you use the phrase, 'well-known fact.' I wouldn't do that."

"Why not?" she asked.

"Well, if a thing is well-known, why mention it?"

His wife said nothing in rejoinder at the time, but a few days later, while reading one of his articles in print, she found something to criticize.

"Horace," said she, "I am surprised to see you using the phrase, 'self-evident.'"

"What's the matter with that?"

"Why, if a thing is self-evident, what is the use of calling attention to it?"

Horace looked at her sharply over his glasses, but made no verbal response. — Youth's Companion.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of *Wm. A. Potter*.

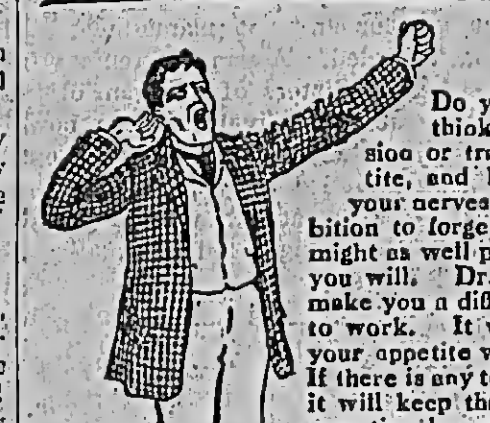

In Use For Over 30 Years.

The Kind You Have Always Bought.

As He Remembered It.

"Johnny, what did the minister preach about today?"

"It was about something that stings like an adder and bites like a multi-plier."

Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at night unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by penny-grabbing dealers into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are of known composition. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

Here's a Chew

that you will enjoy. Not dry and dusty—not flat and tasteless—like fine cut that has been exposed to the air and dust in the dealer's store. But moist, clean, sweet

TIGER FINE CUT CHEWING TOBACCO

Full-flavored tobacco made from the very best leaf that was ever put into fine cut. Then packed in air-tight, dust-proof packages that are sold to you from the same tin canister in which they were originally packed.

The Ladies Aid society will meet with Mrs. Chase on Wednesday, Aug. 3d. All interested are invited to attend.

Miss Clara and Alice Dawse of Chicago are spending a two weeks vacation with their brother James at Dexters Corners.

Mulvey Comedy company and moving pictures will come to Russell August 1, remaining the whole week in the village. Come all and enjoy the fun. Don't forget the date.

The ice cream social given at the church on Friday night by the young ladies of the Sunday school, was a success in every feature. The program was very good and everyone enjoyed both it and the supper.

These Pies of Boyhood.

How delicious were the pies of boyhood. No pies now ever taste so good. What's changed? The pies? No. It's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitters of all organs of digestion—stomach, liver, kidneys, bowels—Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50c at J. H. Swan's.

Uses for Roman Amphitheaters.
Dorchester is not the only Roman amphitheater for which a use has been found in modern times. The amphitheaters at Nimes and Arles, having been turned into fortresses in the middle ages, and afterward occupied by hordes from which they were not freed until the nineteenth century, have in our time reverted to something like their original purpose as scenes of bull fights. Only the southern French bull fight is not quite the genuine Spanish thing; the French bull would hardly stand that. The writer recalls seeing a poster concerning one of these amphitheater bull fights which mentioned as a special attraction for the coming Sunday that the last bull engaged would actually be killed!

TRACK AT SOLON MAY REVIVE POPULAR SPORT

The new race track at Solon, completed early in the summer by George Vogel, has had the effect of stirring up the "fever" among local horsemen and may be the means of reviving the one-time popular sport of horse racing in this section. The track, which was built by Mr. Vogel principally for training purposes, is now in fine condition, and old horsemen who have in years past followed the game and are therefore competent to judge, say Mr. Vogel has one of the finest half-mile tracks they have ever seen. The track is being put to good use these days, and on Tuesday and Friday of each week, which are speed days at the track, a good size crowd is usually on hand to see the horses "cut loose."

Mr. Vogel at present has a string of seven horses in his stables, six trotters and one pacer, and in the list are some fast and clever steppers.

Alice C., a pacer, with a mark of 2:16, is the speediest in the string, and the class she has shown in training as far this summer gives promise that she will hang up a new mark before the season is over. The stallion, Almeron, heads the list of trotters. Almeron has a four-year-old mark of 2:23, and is one of the best horses ever owned in this section. These who have seen him work say he is showing worlds of speed in training this summer, and if he does not step a 20 clip or better before the season closes we have been given the wrong dope. The balance of Mr. Vogel's string is made up of some classy youngsters that can be banked on to bring home their share of the purses in whatever class they are entered.

DOG USED THE TELEPHONE

Intelligent Act of Animal Imprisoned in Office, Reported by the London Mail.

The operator at Orlimby telephone exchange received an unexpected call from the premises of a firm of tobaccoists in the early hours of a recent Sunday morning. Putting the instrument to his ear, his surprise developed into wonderment, for all he could get in reply to the usual query: "What number, please?" was the vigorous barking of a dog.

Coming to the conclusion that there were burglars in the place, the operator informed the police. In the meantime the owner of the dog suddenly remembered that he had, contrary to practice, left the animal, a fox terrier, in the office, had gone to the premises to release it. When he arrived he found a couple of police officers about to force an entrance, and their astonishment was great when reaching the office they found that the terrier had climbed on to a desk five feet high and knocked the receiver off the telephone. Used to hearing his master's voice over the instrument, it had apparently harked into the mouthpiece to draw attention to its plight—London Mail.

One of Two Ways.
His divorced wife dying, her ex-husband weds her. Immediately she gets well. Either that woman loves the man to death and wants to live for him or she's just made up her mind to get well now that she's got him again and hand the cues some of the discipline he escaped by divorcing her.

A Missouri Parlor.
An Atchison woman says she heard a Missouri school-teacher say to a pupil: "Don't say 'talut.' There ain't no such word."—Kansas City Star.

Paradoxical.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.
Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit. The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

THOMAS F. BURNS

Candidate for Minority Representative to the General Assembly

HIS PLATFORM

"I favor the economical expenditure of public monies and the immediate abolition of old time extravagant methods. I favor laws that will be beneficial for the farmers, dairymen and stock-raisers of this great commonwealth, the municipal control of gas, electric and water systems, the establishment of good roads and an economical system of expenditure for their permanent maintenance, convict labor to be used as far as possible. I favor the passage of laws that protect the members of fraternal insurance organizations, against the encroachments of powerful old line insurance companies. In am opposed to any deep waterway legislation by this state until such time as the Federal Government assures its financial support of the project. I am for the rigid enforcement of laws governing the practice of medicine and surgery, and the enactment of such laws as will protect the people against unscrupulous practitioners. I believe there should be just and equitable measures of protection to employer and employee, the conservation of all our national resources, the encouragement, support and advancement of all our public, educational and charitable institutions, in order that they may be placed on the highest plane of efficiency."

A Friglitful Wreck

of train, automobile or buggy may cause cuts, bruises, abrasions, sprains or wounds that demand Bucklen's Arnica Salve—earth's greatest healer. Quick relief and prompt cure results. For burns, boils, sores of all kinds, eczema, chapped hands or lips, sore eyes or corns, it's supreme. Surest pile cure. 25c at J. H. Swan's.

TO GET ANSWER TO LETTER

Simple Plan That is Not Only Effective But Really a Requirement of Courtesy.

You may have occasion often to write a letter of inquiry to a stranger who is under no obligation whatever to answer your question unless he shall see fit to do so out of kindness or fellow feeling. How are you to make reasonably certain of a reply? It is taken for granted that your inquiry is reasonable and in good taste and judgment. You have something to ask as a favor. You should make that request as simple of answer as possible. You should make your question as brief as you can. To this end leave at the end of your written query enough space blank on which the person addressed can fill in answers fully and without formality, and call his attention to the fact. Enclose with your query an envelope addressed to yourself stamped and ready for the mails.

Here is the philosophy of the plan: Many persons are inclined to put off letter writing of any kind. They must be in the mood for it. They "owe" letters to some of their best friends. Letter writing, anyhow, is a bore.

But even to the person in this position a query with a blank space for answer at the bottom of the sheet the envelope addressed and stamped, makes it doubly easy for the writer to scribble at once with lead pencil in the envelope, and post it. Try it. You'll get results.

Antics of Fireballs.
Fireballs or globular lightnings are the most mysterious of all nature and for long it was doubted by science if there was any such thing. But their reality is now beyond question. Ball or meteoric lightning is sometimes seen jumping from cloud to cloud, sometimes rolling, bouncing and skipping upon the ground. In October, 1885, in Constantinople, a globe of fire the size of an orange came apinning, bouncing through an open window and began playing around the gas jet. Then jumping up and down on the dinner table, it danced about the heads of the guests like Ponce de Leon's fire. Finally, it flew into the street and exploded with an appalling crash.

The Lisbon Earthquake.
The Lisbon earthquake of 1775 is clearly entitled to rank among the appalling disasters of history. As to the destructiveness in comparison with the recent calamity in Sicily, it may be said that in the Lisbon earthquake there perished about 65,000 people. The life loss from the Messina disaster has not as yet been fully agreed upon, but in all probability it did not greatly exceed that of 1775. The property loss in the Portuguese city was probably in excess of that which took place in Messina, since Lisbon was much richer than was the Italian city.

Natural Curiosity.
It is strange that people who pay real cash for nondescript counterfeit bills never ask why the makers of the spurious currency forego the pleasure of expending it themselves.

No Trouble at All.
Father (to son):—And are you in a position to support a wife? Son:—Oh, yes; I'm a perfect baller at raising money.—Fleegende Blaetter.

LITTLE "WILLIE" WAS BUSY

When Mamma Found Her Darling He Was "Passing Cards" for Bootblack.

A glistening car with a liveried footman on the curb stood at the Fifth avenue door of a fashionable jeweler, the New York Morning Telegraph says. Suddenly a richly dressed woman, wildly excited, rushed out, followed by several young men from behind the counters.

"Where is my Willie?" she cried. "I was looking at some jewels and he slipped away. Have you seen Willie?" The footman shook his head stolidly in the negative.

Just then an elderly man who was reading a card and grinning, came in to Fifth avenue from around the corner. He interrupted the excited mother.

"I beg your pardon, madam," he said. "He must have left by the side door while you were absorbed in the jewels. I really thought it strange that a child from some home of wealth should be passing cards for a bootblack. That is what he was doing. He was probably pressed into service by the quick-witted bill passer."

She rushed through the crowd and found the child busy, as the stranger had said.

"Nasty cards!" exclaimed the mother, seizing them indignantly.

Willie was dragged to the car howling.

"Where did you get them?" she demanded.

"Man gived 'em to me," he bawled.

"Man told me to give 'em to my friends. I want my cards."

Struggling with his mother, he was whisked away in the car.

American Voices Something Fierce.

"You don't notice it so much when you have been living here right along," said a man who returned lately to America from the Orient, "but to a person who has spent the last two years in sleepy Hindu villages American voices, particularly the voices of American women, are, as the Bowery boy might put it, 'something fierce.' Mer gabble or mutter or bellow, clip off words and talk through their noses, all of which is bad enough, but women tear your nerves to pieces by shrieking as if each were trying to outshout the other. My wife has dragged me to some receptions and things, and I wonder more and more why voices, such as our grandmothers had—sweet, low voices—are never heard any more."

He Was Sorry He Spoke.

It was at a suburban dinner party. The head of the house held up a rib of pork and observed, humorously: "Here, ladies, is what Eve was made of." "Yes," responded one of the guests, "and from about the same kind of a critter."—Illustrated Sunday Magazine

YEARS TOO OFTEN WASTED

Magazine Writer Calls Attention to What He Considers a Danger to Democracy.

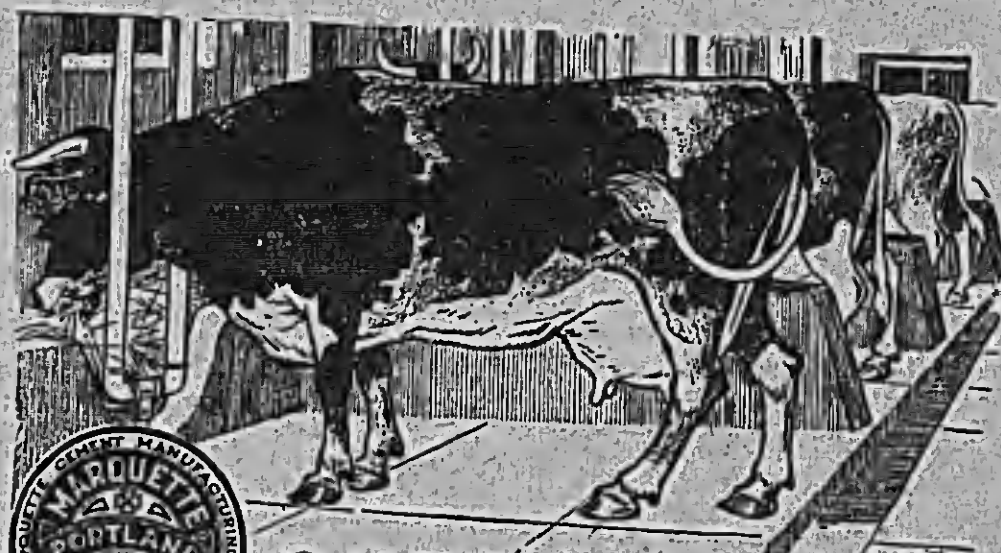

As conditions now exist there comes into the life of the average boy or girl four or five waste years—the years between thirteen and eighteen. These waste years hold in them the real dangers of our democracy. For out of school the boy at least is worthless. If the boy goes out to attempt to learn a trade at 14 years of age the manufacturer says: "I do not want you in my factory," and the manufacturer will not employ the boy except as an errand boy.

And yet 10,000,000 of fourteen-year-old boys and their sisters—who are really worth something—are out of school in America today. Partly they are out for economic reasons; the family needs their support. But apart from economic forces there are social reasons why he is not in school. His studies and his teachers, and at the bottom of all, the selfishness of the tax-payers.

For when a child is not "doing well" in school the parents find it easy to put him to work outside. Probably 5,000,000 leave school not because they have to leave to support the family, but because the parents feel that the boys at least are better off working out of school than idling and wrangling with their teachers in school. The instinct of the boy for physical education as well as for mental training should be heeded. The boy longs for many things, to see things under his hand. The almost universal introduction of manual training in some form into the lower grades of American schools—giving the boy opportunity to work with his hands—is one of the most important symptoms of social health in our political organization.—American Magazine.

Smoker Who Found Himself.

It is doubtful whether the confirmed smoker ever really enjoys smoking. The habit becomes merely mechanical. M. Maeterlinck hit upon a happy expedient whereby he continued to enjoy the pleasure of his pipe and at the same time guarded against its injurious effects. He is, as appears, the slave to a habit. "Without the help of tobacco," writes a recent biographer, "he seemed incapable of inspiration or crystallizing it in words. If he has not overcome the need he has outflanked it. Smoking, he noticed, had lost its virtue as a stimulant, and instead of rousing the brain to activity, as at first, had come to disturb its functions; so now, in lieu of ordinary tobacco, he fills his bowl with a de-nicotinized preparation, tasteless indeed, but harmless. His pipe is still always alight when the pen is busy, but it is hardly now more than an innocent subterfuge intended to cheat and to satisfy an irresistible mechanical craving."

SANITARY STABLE FLOORS

MARK THE MARQUETTE MARK

A clean stable floor is a big help to animal health. A Marquette Concrete stable floor is easily kept clean—no filth to contaminate contents of the milk pails—every ounce of manure on the fields where it will do good, not on the stable floor where it will breed disease and do harm. Floor-making is the simplest kind of concrete work. Do it yourself. We'll gladly send you details for making a stable floor with
